

The Impreza Turbo
Catalunya.

Only a few will know
how it feels.

 SUBARU
PROVEN THE WORLD OVER

Catalunya

The Impreza Turbo Catalunya.

A car built to celebrate Subaru
supremacy – winning the World

Rally Championship for the
second year in succession. A very
special version of the awesome
Impreza Turbo 2000 AWD that
rocketed Colin McRae to victory
in the Spanish Catalunya Rally.

Only a few souls will be lifted
by the rare spirit of this car.

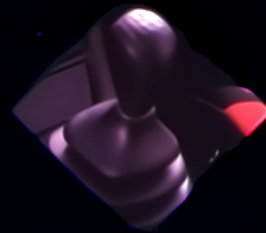

For only a mere 200 will be
produced, their exclusivity
confirmed by an individually
numbered dash plaque.

Powered by a 2 litre, quad-cam turbocharged engine delivering a phenomenal 211 PS, the Catalunya is capable of catapulting from 0-62 mph in 6.4 seconds.

This prodigious power is responsibly harnessed to the active safety of full-time all-wheel drive and ABS braking. Maximising grip, handling and control, striving to keep you out of trouble in almost any driving conditions. Adding the further reassurance of a driver's airbag and an even

stronger body shell with
upgraded impact protection.
Finished in distinctive black
paintwork and Catalunya
badging on the side and rear,
this limited edition features all
the hallmarks of its rally
winning pedigree. From the
huge turbo intercooler air intake,
front air dam and fog lamps,
to the rear spoiler, gold alloy
wheels and low profile tyres,
the family resemblance is clear.
Yet inside, there is no brutish
bare cockpit of the rally car.

Instead, there's contoured
black sport seats, trimmed in
red with integral headrests,
carbon effect dashboard, short
rally style gear knob, Catalunya
badged floor mats, as well as air
conditioning among its wealth
of creature comforts. Needless
to say, this unique celebration
of Subaru World Rally success
will be much sought after.
So if you're to be one of the few
fortunate owners, may we suggest
you take a tip from Mr. McRae,
and proceed with some haste.
